This exciting course will guide students from the sketchbook study to the finished canvas. Working with models both on location and in the studio, students will explore different themes and develop their own approaches to composing figurative paintings. Beginning with drawing on location, students will gather information using a variety of drawing media : charcoal, ink and oil pastels. In the studio students will learn how to develop them into painted compositions using oils, acrylics, or chalk pastels. A recent location was the Union Canal at Lochrin Basin. Our model held 30 minute canal worker poses and students were introduced to working in ink and wash to explore the use of line and tone in drawing. A slide presentation in the studio looked at the work of L S Lowry and Van Gogh as inspiration for the painted compositions.

Waverley Station
St. Giles Cathedral

Working for 2 weeks on the theme 'Night Scene' provided an opportunity to work with a dramatically lit set up and make connections between tone and colour.
