 WEDNESDAY 9 45 - 4
 22nd April - 1st July**

In this studio based class students learn to develop their own ways of drawing and painting the human figure. Each session begins with a slide presentation or demonstration related to the theme and subjects including portraiture, composition, narrative and colour. Working for 2 weeks on the theme 'Night Scene' provided an opportunity to work with a dramatically lit set up and make connections between tone and colour. A slide presentation at the start looked at the paintings of Rembrandt and Vuillard for inspiration.

COST £390 FOR 11 WEEKS
